DETAILED ACTION

Election/Restrictions

1. The applicants amended the claims to direct them to patentably distinct inventions.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-6, drawn to a method, classified in class 134, subclass 26.
 - II. Claims 7-12, drawn to a method, classified in class 134, subclass 33.
 - III. Claims 13-16, drawn to a method, classified in class 134, subclass 30.
 - IV. Claims 21, 23 and 24, drawn to a method, classified in class 134, subclass 19.
 - V. Claim 25, drawn to a method, classified in class 134, subclass 1.3.
 - VI. Claims 26 and 28-31, drawn to a method, classified in class 134, subclass 33.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions of Groups I-VI are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, inventions of Groups I-VI have separate utility such as methods for cleaning wafers. Each Group has limitations, which are not required by any other group. There is no combination claim. See MPEP § 806.05(d).

Art Unit: 1746

4. Because these inventions are distinct for the reasons given above and the search required for any of Groups I-VI is not required for any other Group, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander Markoff whose telephone number is 703-308-7545. The examiner can normally be reached on Monday-Friday.
